

NOTICE TO OWNERS

March 6, 2026

Stranger on Property

On February 25th, a young woman with a hoodie was seen walking in the backyards of Unit 33 to 39 and Units 25 and 26. She was carrying a clipboard but acting suspiciously. She drove away quickly in an old, small, teal Mazda truck after she was aware that an Owner had noticed her. The Council was not aware of any service booked for that day.

If you notice any suspicious person on our property and feel comfortable calling out to them from a distance to ask who they are, please do so. A Council member should also be notified as soon as possible.

Coventry Woods Gardens

Coventry Woods has many garden areas located throughout the complex. In order to share the maintenance, for example, weeding, deadheading, etc., we will be holding a meeting for any interested Owners who are willing to help.

At the meeting, we will be asking Owners which garden area they would like to take on for the season. Please watch the bulletin board in the Mailroom for the meeting date.

Maximizing Independence

Sameer Premji, from Grove Pharmacy, (the pharmacist that provides the vaccination clinics), is offering to make a presentation to interested Owners. The topic will be "Keys to Aging Gracefully at Home". This presentation will only take place if there is enough interest.

A sheet will be placed in the Mailroom for Owners to sign, with more information about the seminar and to indicate whether an afternoon or evening session would be more popular. Dependent on the interest shown, we will coordinate times and dates with Sameer.

Thank you,
From your Council
